## *Emulsifiers and Additives for Asphalt Emulsion Applications*

Product Name	Description	Appearance	Applications
CRISAMUL T9	Emulsifier for cationic rapid and medium-setting asphalt emulsions.	Yellowish solid	Surface dressing, penetration macadam and open grade mixes.
CRISAMUL CRS9	Emulsifier for cationic rapid and medium-setting asphalt emulsions.	Clear amber liquid	Surface dressing, penetration macadam and open grade mixes.
CRISAMUL CSS8	Emulsifier for cationic slow-setting asphalt emulsions.	Viscous liquid	Tack coat, dense grade mixes, slurry seal, cold mix recycling, mixed-in- place stabilization
CRISAMUL MS-SS	Cationic quick set emulsifier	Soft paste dark brown	Micro-surfacing and slurry seal.
CRISAMUL AS	Adhesion promoter	Paste	Adhesion promoter for hot mix and patching mixes. Anti-Strip
